

NHAN HOANG QUANG

Fresher AI/Backend Developer

Hi! I'm Nhan Hoang Quang, an undergraduate AI student and research assistant at [AITA LAB](#), FPT University. I'm passionate about backend development, automation, computer vision, and quantum machine learning. I enjoy building real-world tools, solving algorithmic challenges, and collaborating on open-source projects. Currently, I'm researching quantum-based image classification while also competing in programming contests. My main stack includes Python, Flask, FastAPI, and PyTorch. Outside of code, I love exploring new tech and contributing to educational projects. Always open to exciting collaborations—let's build something awesome together!

SKILLS / INTERESTS

Technical Skills:

- Programming Concepts: OOP, Functional Programming (FP), Asynchronous Programming (Async/Await)
- Backend Development: RESTful API Design, MVC Architecture, Web Scraping (Headless Browser, User Interaction Simulation)
- Artificial Intelligence/Machine Learning:
 - ML Workflows: Preprocessing, Training, Evaluation
 - Quantum Machine Learning: Quantum Circuit Design, Hybrid Models, Quantum Transfer Learning
 - Computer Vision (CV): Image Processing, Object Detection, Classification
- Competitive Programming (CP): Common Algorithms (Greedy, Bitmask, Dynamic Programming), Data Structures (Linked List, Queue, Stack, Tree including BST/AVL)
- DevOps/Tools: CI/CD Basics, Git Flow
- Productivity Tools: Microsoft Office (Word, Excel, PowerPoint)

Soft Skills: Positivity, Leadership, Public Speaking, Problem-Solving, Adaptability & Quick Learning, Collaboration & Teamwork, Time Management, Initiative & Self-Motivation, Creativity

Languages: Vietnamese (Native/Bilingual), English (Professional Working)

Interests: Developing softwares (backend), Automation scripts, Quantum Machine Learning (QML), Competitive Programming, Computer Vision

EXPERIENCE

Part-time Mathematic, Information technology and English Tutor	Private Home	Jan 2021 – Current
---	--------------	--------------------

Tutored Mathematics (elementary to middle school), Competitive Programming (Python), and English (for children aged 5–14), focusing on grammar, communication, and foundational skills. Known for clear and concise explanations.

Online Customer Support	Computer Shop	Jan 2018 – Dec 2020
--------------------------------	---------------	---------------------

Managed social media and hotline channels, responded to customer inquiries, processed orders, and advised clients on product selection. Provided fast and helpful customer service.

IT Freelancer	At Home	Jan 2018 – Current
----------------------	---------	--------------------

Worked on various small projects focusing on automation tools, data processing, and visual representation. Created custom scripts and utilities for online income (MMO). Specialized in Python-based backend tools for personal and client use.

EDUCATION

Artificial Intelligence Bachelor	FPT University	Jan 2025 – Jan 2027
---	----------------	---------------------

High School – Natural Sciences Track	Ba Diem High School, Ba Diem Ward, Ho Chi Minh City	Jan 2021 – Jan 2024
---	---	---------------------

Graduated with good academic standing, majoring in Natural Sciences. Actively participated in school-organized youth, STEM, and extracurricular activities throughout the 3 years.

AWARDS

 **2016–now: Competitor in Codeforces & local STEM/English contests**

 **2018: First Prize – District-level Young Informatics Contest (TINHOCTRE HCM)**

 **2023: Top 1 with 500/500 points in NAI Challenge (semifinal of HuelCT)**

PERSONAL PROJECTS

Auto 9:16 Video Tool (not open source project)

[*github.com/blackfox20092006/auto9-16video*](https://github.com/blackfox20092006/auto9-16video)

Utility for MMO content creators to auto-format videos for video social networks such as Tiktok, Youtube Short,... in 1 click

Tech: Python + video editing libs (100–150 active users!)

Weather Forecast Chatbot AI: Friendly chatbot with weather prediction

[*github.com/blackfox20092006/weatherforecastbot_source*](https://github.com/blackfox20092006/weatherforecastbot_source)

Tech: Python + AI model training

TEAM PROJECTS

Daily hackathon organized by the Ho Chi Minh City Youth Union Phần mềm quản lý văn bản:

[*github.com/blackfox20092006/phanme_mquanlyvb*](https://github.com/blackfox20092006/phanme_mquanlyvb)

A doc management tool for SMEs and government offices

Role: Team Leader, Backend Dev

Tech: Python, tree-based data structure + DB

STEAMHacks 2023 (STEM For Vietnam) Cyber Safety AI for Kids:

[*github.com/blackfox20092006/Tech-Fusion-X*](https://github.com/blackfox20092006/Tech-Fusion-X)

Helps children stay safe online with intelligent filters & chatbot

Role: Team Leader, Backend Dev Tech: Python + JS + LLM integration
